**W**e read books to find out who we are. What other people, real or imaginary, do and think and feel . . . Is an essential guide to our understanding of what we ourselves are and may become.

- - - Ursula K. Le Guin

## *Bear Hub Update*

*The Bear Hub has received new furniture!! The colorful tables and chairs provide comfort and flexibility for our students as they work independently or in groups. Tables can be arranged to support individual student work or to support large group projects. We have received so many compliments from our students on our new furniture!! They truly enjoy coming in and working, reading, or just taking a break from the hectic hallways in the Bear Hub!*

*We have three distinct areas in the Bear Hub: the computer lab, the atrium area, and the Collaborative Corner. Classes who need access to computers can sign up for the computer lab; classes who desire to work as a class outside the actual classroom may sign up for the Collaborative Corner; individual students and small classes may use the atrium area for studying, reading, homework, or collaborative learning with their peers.*

*The Collaborative Corner has provided a much needed space for class to come to an appealing environment and get out of the classroom. We have a screen and portable projector that can be used in this area. Students and teachers are excited to come down for a change of pace from the regular classroom to use the Collaborative Corner.*

*Check out our new space by clicking on the picture below which takes you to the MVHS Media Center webpage . . . Scroll down the homepage to see a slide show of our new look!*
